

August 1, 2023

The Honorable Lauren Underwood  
United States House of Representatives  
1410 Longworth House Office Building  
Washington, DC 20515

The Honorable Cory Booker  
United States Senate  
717 Hart Senate Office Building  
Washington, DC 20510

Dear Congresswoman Underwood and Senator Booker,

On behalf of the 51 undersigned organizations representing the Nursing Community Coalition (NCC) we would like to thank you for introducing the Black Maternal Health Momnibus Act of 2023 (H.R. 3305/ S.1606). The NCC is a cross section of education, practice, research, and regulation within the nursing profession representing Registered Nurses (RNs), Advanced Practice Registered Nurses (APRNs),<sup>1</sup> nurse leaders, boards of nursing, students, faculty, and researchers. Together, we support this comprehensive effort to address the growing maternal health crisis facing our nation.

The US has the highest rate of maternal mortality among similar high-income countries, and these statistics continue to worsen.<sup>2</sup> In 2021, the stark reality of this issue came into focus as the maternal mortality rate in the US was reported as 32.9 deaths per 100,000 live births, compared with a rate of 23.8 in 2020 and 20.1 in 2019.<sup>3</sup> Sadly, our black mothers are disproportionately impacted as their maternal mortality rates are 2.5 to 3.1 times higher that of their white counterparts.<sup>4</sup> With more than four and a half million practitioners throughout the country,<sup>5</sup> nurses and APRNs are at the forefront of these efforts to improve maternal, child, and women's health.

---

<sup>1</sup> APRNs include certified nurse-midwives (CNMs), certified registered nurse anesthetists (CRNAs), clinical nurse specialists (CNSs) and nurse practitioners (NPs).

From growing and diversifying the perinatal workforce and investing in social determinants of health to supporting moms' mental health and our pregnant and postpartum veterans, the Momnibus Act provides a multipronged approach to addressing maternal health in the United States. More so, we recognize that more data is needed to inform a sound and lasting policy solution. By including provisions to improve data collection and quality measures, we are on the right path to providing the care our mothers need.

As we continue to address the racial and ethnic gaps in health care, and create a more equitable system, especially for our black and brown mothers, passing the Black Maternal Health Momnibus Act of 2023 is a necessary and strong step forward, one supported by the undersigned members of the NCC. If the Nursing Community Coalition can be of any assistance to you or your staff, please do not hesitate to contact the coalition's Executive Director, Rachel Stevenson, at [rstevenson@thenursingcommunity.org](mailto:rstevenson@thenursingcommunity.org).

Sincerely,
