

American Nephrology Nurses Association 2019 STATE HEALTH POLICY PRIORITIES

The American Nephrology Nurses Association (ANNA) will continue to work independently and in collaboration with state kidney care and professional nursing coalitions to identify and respond to health policy issues that affect the practice of nephrology nurses and the individuals for whom we provide care. ANNA will monitor state and regulatory bodies for action impacting the care of the chronic kidney disease (CKD) population and nephrology nursing practice.

Priorities for Medicaid Payment System Related Issues

1. Monitor policies related to state Medicaid payment systems impacting the CKD population.
2. Advocate for access to care for the CKD population, including complete, quality, and evidence-based care.
3. Endorse health policy initiatives that promote organ donation and increase transplantation.
4. Advocate for state legislation and funding for initiatives to prevent or slow the progression of CKD and for patient education programs on treatment options.

Priorities for State Boards of Nursing Related Issues

1. Monitor regulation changes impacting nephrology nursing.
2. Advocate for initiatives to ensure registered nurses and advanced practice registered nurses (APRNs) are able to practice to the full scope of their educational preparation and license.
3. Continue efforts to define the scope of practice and expand reimbursement for APRNs.
4. Advocate for and support all states signing the Nurse Licensure Compact to facilitate disaster response and to protect nurses who provide telehealth support to patients in remote areas.

Priorities for Nursing and General State Health Policy Issues

1. Monitor proposed state legislation impacting the CKD population.
2. Monitor and participate in state kidney coalitions.
3. Monitor various public and private quality improvement initiatives.
4. Advocate for state legislation, funding, and other regulatory initiatives to address the nursing faculty shortage.
5. Advocate for fair and consistent work environments and removal of geographic and practice setting limitations across the country for APRNs.
6. Monitor legislation on mandatory overtime.
7. Support staffing decisions by registered nurses, based on the needs of the individual patient.
8. Increase the use of a patient acuity classification system.
9. Advocate for further policies to support research on nursing models of care that promote optimal patient outcomes.
10. Support the restriction of the title "nurse" to only those individuals who have fulfilled the requirements for licensure as a registered nurse as outlined in each state's nurse practice act.
11. Advocate in favor of legislation to improve recruitment and retention of registered nurses.
12. Support legislation to improve patient and personnel safety.
13. Advocate for improved patient handling techniques to protect registered nurses and other health care workers from injury.
14. Support the establishment of comprehensive prevention programs in health care settings to address workplace violence.

***Adopted by the ANNA Board of Directors in September 2012
Revised and/or reaffirmed annually from 2013-2019
Most recently revised: February 2019***

The State Health Policy Priorities are reviewed and reaffirmed annually.
