FOR THE NEW MEMBER WANTING TO BECOME INVOLVED WITH A CHAPTER:

- 1** Contact the Chapter officer / member whose information was provided to you from the National Office. Suggestions of questions to ask include: the date of the next chapter meeting, how you can get involved, educational opportunities, or upcoming chapter events.
- 2** Attend the next chapter meeting or event - notify the chapter leader you talked with of your planned attendance and bring additional questions you have about how to become involved.
- 3** Ask when the chapter's next large educational event is and offer to help set up tables or work the check in table - great way to meet other members as well!
- 4** If you are unable to join a chapter because of distance, there is the opportunity to join a "virtual chapter". Virtual chapters meet on zoom and work together remotely in order to develop relationships with other ANNA members. To learn more about these, please contact the ANNA National Office and they will provide you with the information you need.
